

Tour of Zenith Zodiac CH650B Building Project

The meeting will include the following demonstrations and discussions of Larry Zepp's Zenith Zodiac CH650B building project: - Construction of the aluminum fuselage - Features and display of the Viking Aircraft engine (derived from the 4-cylinder inline Honda Fit engine) - Electrical system design for fuel injected engines. Discussions will include Dos and Don'ts of safe amateur-built aircraft design and construction.

Directions: South on Reed Rd from Vance Ave or North on Reed Rd from E. State Blvd. Then west on Woodstock Dr for one block. Then south on Trent Dr.

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafetyTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
